

Welcome Brenda!

Brenda Bigley Vestal is the new secretary at Kelley School. On the job for just over a month, she replaced Tina Lewis who is working at the North Rose-Wolcott School District.

Vestal worked for 20 years as an executive administrative assistant for big name companies like Apple Inc. and US Foods before moving to Walworth with her husband, Vance in 2018.

She is enjoying her new job in the busy Kelley School office with her varied duties.

“I like the work and the people I work with,” Vestal said.

Growing up in Brockport and graduating from Brockport High School, she is also enjoying being back “home” in the Empire State and much closer to her parents, two adult children, her siblings and their families.

“I love this area,” she said. “And I love being in less traffic. I’m now making the shortest commute to work that I’ve made in over 20 years. And New York has the best apples you can buy anywhere.”

When she isn’t working, Vestal enjoys spending time with her husband and their two “rescue” dogs Maggie and Brody; reading, doing crafts, gardening and baking _ especially cookies.

“I love to bake. I don’t have a lot of time to do it, but I love it,” she said.

Kelley Principal Jeff Hamelinck is happy to have Vestal on board.

“Brenda has one of most challenging positions in our school and we have no doubt she will rise to the occasion with her tremendous work ethic and sense of humor,” he said. “Kelley School is looking forward to her contributions to our community for a long time.”
