2017-2018 Curricular Field Trip Notice

Dear Parents/Guardians:

The Board of Education provides students with a variety of educational, cultural and recreational experiences to help them understand and enjoy the world around them. Curricular field trips are required of students enrolled in certain grade-levels and/or courses of study. They are approved and recognized as appropriate for academic credit and are intended to support the achievement of a prescribed curricular outcome. Field trips are a part of the District's basic educational program and normally occur during the regular school day.

This form will apply to all curricular field trips appropriate for your child in the 2017-2018 school year. Specific details regarding each educational trip will be provided to parents prior to any trip. Extracurricular trips that are outside the school day for clubs and activities do not apply to this form. Permission will be required per event for extracurricular activities.

This notice will only be issued once per school year. Please sign this form and return to your child's school ASAP. **This will allow your child to participate in upcoming field trips.**

Name of child: _____

Grade: _____

In order that my child may receive all the educational benefits to be derived from attendance on all educational trips, I hereby acknowledge that he/she will participate under such conditions as may be prescribed by the school. If, as in most cases, the place to be visited is beyond walking distance, I grant permission for my child to ride the school bus. I understand that all elements of the Code of Conduct apply and that my child's emergency medical and contact information and any special food provisions are to date with notifications to the school nurse for any changes throughout the school year.
