SESSIONS	OVERVIEW	ACADEMIES
<p><i>Learning Center Sessions (LCS) take place regularly from 3:00-4:30 pm. During one or more weekly sessions, you can access teachers for general help or specialized support with math, science, English and/or social studies.</i></p>	<p>The Learning Center is the place in which students and teachers work together on the most crucial areas of study required for graduation.</p> <p>This is a judgment free environment where you can get support to quickly change your trajectory in one or more of your classes.</p>	<p><i>Learning Center Academies (LCA) are designed to be very focused, lengthier opportunities for you to prepare for success on a NYS Regents examination. Any student is welcome to attend an academy; however, the design of the instruction will be such that success on the NYS Regents will be the measure of effectiveness.</i></p>
