SESSIONS

Learning Center Sessions (LCS) take place regularly from 3:00-4:15 pm. During one or more weekly sessions, you can access teachers for general help or specialized support with math, science, English and/or social studies.

OVERVIEW

The Learning Center is the place in which students and teachers work together on the most crucial areas of study required for graduation.

This is a judgment free environment where you can get support to quickly change your trajectory in one or more of your classes.

ACADEMIES

Learning Center Academies (LCA) are designed to be very focused, lengthier opportunities for you to prepare for success on a NYS Regents examination. Any student is welcome to attend an academy; however, the design of the instruction will be such that success on the NYS Regents will be the measure of effectiveness.
